

## MLS WEBINAR

# MetroTex Presents Remine

Join us for this webinar course introduction to Remine. Remine is a map-based analytics tool that allows users to quickly and easily find qualified leads, whether they are farming a neighborhood or working with investors. In this webinar we will go over:

- The different ways to search
- How to pull a property report
- Reading the property report overview
- Saving searches
- Managing the property racking list
- Introduce data mining features
